### ***Anti-Gravity Pressure Reduction Mattresses***

#### **The Astral Series**

This moderately priced collection features a choice of modified surface designs for patients at moderate risk for skin abrasions. The nylon Low Vapor Transmission top cover provides superior protection against moisture and is cool and comfortable against the skin. Its soft, supple nature accommodates the surfaces of pressure management while providing maximum protection to the interior of the mattress.

#### **The Astral Bubble Top Sectional Pressure Reduction Mattress**

This is a high-performance, multi-layered, multi-zoned support system. Zones or “sections” of the top layer put strength in the “trunk zone” where 80% of patient weight is located, and allows the head and leg zones to offer varied pressure reduction in such vulnerable areas as the heels and ankles. The bubble-cut top layer of ultra-soft foam creates a modified surface that permits air circulation while minimizing body heat build-up. Sturdy foam rails support the perimeter of the mattress to help prevent patient fall-out.

Model # BB1811-75	Astral Bubble Top Sectional	35" x 75"
Model # BB1811-80	Astral Bubble Top Sectional	35" x 80"
Model # BB1811-84	Astral Bubble Top Sectional	35" x 84"
Model # BB1811-SW	Astral Bubble Top Sectional	Special Width

#### **The Astral Tri-Layer Pressure Reduction Mattress**

The tri-layered variable density foam mattress provides vital pressure reduction features while the die-cut design of the top layer and soft design of the middle layer aids circulation and maximizes patient comfort. Sturdy perimeter rails are included for added safety.

Model # TL1824-75	Astral Tri-Layer	35" x 75"
Model # TL1824-80	Astral Tri-Layer	35" x 80"
Model # TL1824-84	Astral Tri-Layer	35" x 84"
Model # TL1824-SW	Astral Tri-Layer	Special Width

#### **The Astral Geo-Cube Low Pressure Mattress**

Effective in helping to relieve shear forces by improving airflow to the surface, this design uses a high-density solid base for excellent patient support at a moderate price. The precision die-cut top layer aids in oxygen flow to sensitive skin areas.

Model # CU1536-75	Geo-Cube	35" x 75"
Model # CU1536-80	Geo-Cube	35" x 80"
Model # CU1536-84	Geo-Cube	35" x 84"
Model # CU1536-SW	Geo-Cube	Special Width

#### **All Made Rite Astral Series mattresses feature:**

- Antimicrobial components to prevent growth of mildew & fungus
- Durable, easy to clean nylon covers that are stain resistant & flame retardant
- Nylon LVT ticking has an extremely low moisture transmission rate of less than .5 gram/meter squared/hour
- Low ILD Foam on top & interior layers reduces pressure

“IT’S A GOOD NITE WITH MADE RITE”
