

In the cost-conscious environment of today’s healthcare industry, the **Silver Spring** series allows smart choices for healthcare providers. The collection has been meticulously designed and crafted to provide dollar for dollar value.

All Silver Spring mattresses offer strong support and durability for institutional needs. They are engineered to meet the most demanding uses. They have been time-tested with more than four decades of clinical use. These mattresses have proven their effectiveness again and again, receiving high marks among administrators and other nursing professionals.

The **Silver Spring Healthcare Mattress Collection** includes revolutionary high-tech patented fiber material created in a proprietary process to produce superior mattress quality. Ideal for use where either short term or extended patient stays in skilled nursing or long-term care facilities are the norm, the **Silver Spring Healthcare Collection** features:

- **Surfaces** that can be cleaned and disinfected in seconds
- Optional **fully gatched** innerspring units for adjusting to all bed positions
- **Fabrics** that are fluid-proof, stain & tear resistant, antimicrobial
- **Latex-free** inside and out
- **Flame retardant system** that complies with CPSC 16 CFR Part 1633, CAL TB 129 and NFPA 101 Life Safety Code
